

Modern slavery and human trafficking policy statement

This statement is made on behalf of the board of Practice Plus Group¹ and published with regards to the Modern Slavery Act 2015 which requires large employers to be transparent about their efforts to eradicate slavery and human trafficking in their supply chain. We are proud of the steps we have taken to combat slavery and human trafficking and this statement details our policies and practices in recognising and preventing human trafficking and slavery in our business and supply chain during the year ending 30 September 2020.

Our structure and supply chains:

We are a provider of health care services in the healthcare sector. We are the parent company of the Practice Plus Group group of companies. We have been delivering healthcare services throughout the UK for more than 15 years. We have numerous health care services across the UK including nine hospitals, 47 prison healthcare services, four 111 call centres, two GP practices, two minor injury units and 20 out-of-hours services.

Our supply chains include procurement of agency staff, medical consumables, facilities maintenance, utilities and waste management.

Our policies in relation to slavery and human trafficking:

We are committed to ensuring that there is no modern slavery or human trafficking in our supply chains or in any part of our business. Our Anti-slavery Policy reflects our commitment to acting ethically and with integrity in all our business relationships and to implementing and enforcing effective systems and controls to ensure slavery and human trafficking is not taking place anywhere in our supply chains.

Due diligence process:

As part of our initiative to identify and mitigate risk we ensure that any suppliers we use have completed our questionnaires in relation to slavery and human trafficking. We ensure that we work with suppliers who treat their obligations towards modern slavery with the same importance that we do.

Risk assessment and management:

We have in place systems to:

- Identify and assess potential risk areas in our supply chains.
- Mitigate the risk of slavery and human trafficking occurring in our supply chains.
- Monitor potential risk areas in our supply chains.
- Protect whistle blowers.
