Our policies in relation to slavery and human trafficking:

We are committed to ensuring that there is no modern slavery or human trafficking in our supply chains or in any part of our business. Our anti-slavery policy reflects our commitment to acting ethically and with integrity in all our business relationships and to implementing and enforcing effective systems and controls to ensure slavery and human trafficking is not taking place anywhere in our supply chains.

Due diligence process:

As part of our initiative to identify and mitigate risk we ensure that any suppliers we use have a valid statement, mission or policy in relation to slavery and human trafficking. We ensure that we work with suppliers who treat their obligations towards modern slavery with the same importance that we do.

Risk assessment and management:

We have in place systems to:

- Identify and assess potential risk areas in our supply chains.
- Mitigate the risk of slavery and human trafficking occurring in our supply chains.
- Monitor potential risk areas in our supply chains.
- Protect whistle blowers.

Key performance indicators to measure effectiveness of steps being taken:

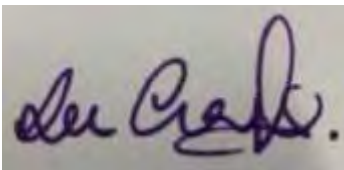

No reports have been received from employees, the public, or law enforcement agencies to indicate that modern slavery practices have been identified.

Training on modern slavery and human trafficking:

To ensure a high level of understanding of the risks of modern slavery and human trafficking in our supply chains and our business this policy forms part of the induction process for all individuals who work for us. Regular training will be provided on the policy and the risk our businesses face from modern slavery in our supply chains as is deemed necessary. Our employees are encouraged to identify and report any potential breaches on our anti-slavery policy and we have in place protection for whistle blowers.
