Helping Karen get back to her best!

When Karen's NHS consultant left the hospital she was due to be seen in, she was left without a treatment plan and was facing a long wait.

Karen says: "I wanted my life back. My daughter said that the money was there and that paying for the knee to be sorted would be the best option. After agreeing this was the best choice, I didn't look back."

"The staff at Practice Plus Group Hospital, Barlborough have been brilliant from the beginning to the end. I would thoroughly recommend them."

"I have just enjoyed a lovely holiday in Tunisia – the first time in five years I have gone away and not been in pain. Then I celebrated my husband's 80th birthday and had a dance! I can drive, I can do the gardening...I just cannot begin to say how grateful I am to be able to do all the things I love."

Frequently asked questions

1. I have already been seen as an NHS patient, but have been told I have to wait for treatment - can I still pay for myself?

We know that being treated sooner can have a huge impact on your quality of life, so if you would like to explore the option of paying for yourself please speak to our private patient advisors on [03301 732 117](tel:03301732117) or selfpay@practiceplusgroup.com. Changing your path from the NHS to self-pay is simple, and you may even see the same consultant, as all of our doctors also treat NHS patients.

2. How and when do I pay?

You will need to pay for your initial consultation at the time of booking. Payment for surgery is required one week before your surgery date. You can pay by debit card, credit card, or bank transfer (BACS). Alternatively, you can pay monthly via a credit agreement with our finance partner, Chrysalis Finance Limited. Find out more about our payment options at practiceplusgroup.com/wellsoon. If you are an insured patient, please check your agreed excess with your insurer.

3. Do I need a GP referral?

There may be some occasions where we ask you for a GP referral, depending on the treatment you are seeking. However on most occasions we will just request a past medical history from your GP.

4. Can I choose my consultant?

You will always be given the option of the first available appointments possible, however if you wish to see a specific surgeon we can accommodate this.

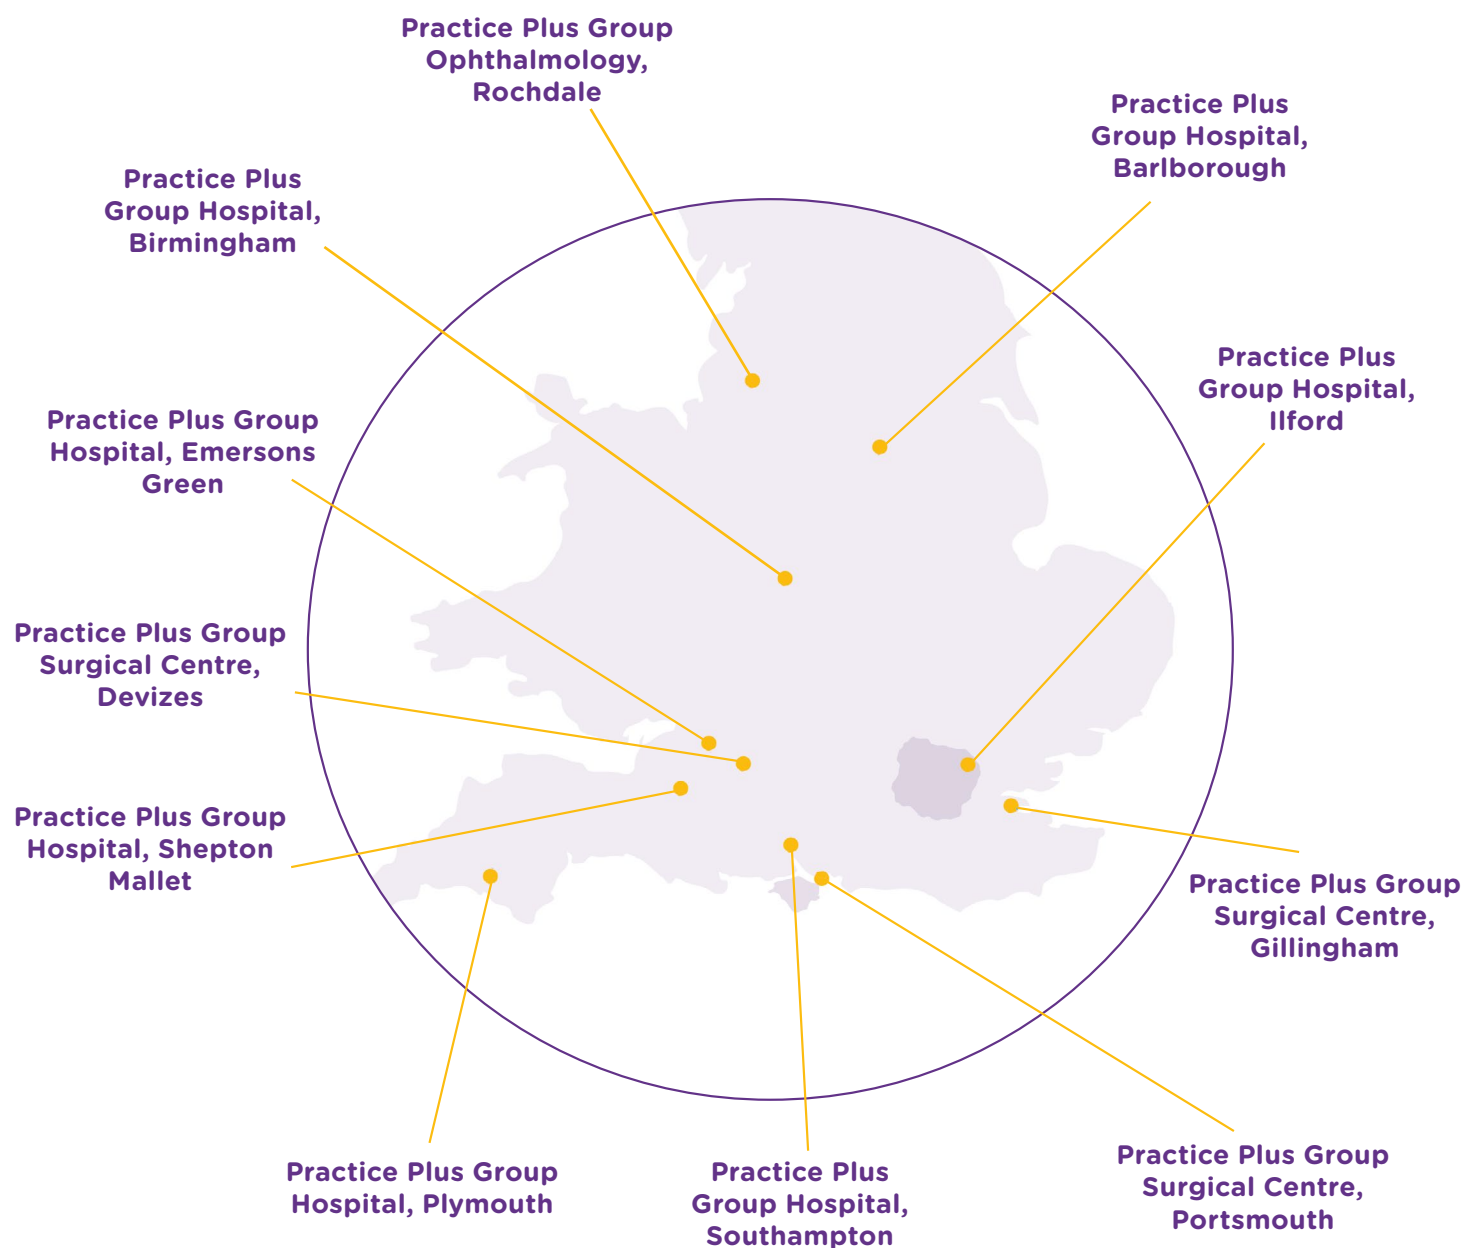

5. What if I have a problem after my surgery?

You may have a check-up appointment and/or physiotherapy depending on the type of surgery you've had. We offer comprehensive after care and you will also have access to our 24 hour clinician-led helpline following your surgery.

6. Can I still have my surgery at Practice Plus Group if I have a health condition?

Depending on what your health condition is, we can provide selected treatments as long as your condition is well managed and stable upon admission to the hospital. This includes angina, asthma, atrial fibrillation, diabetes, high blood pressure, Parkinson's disease and mild dementia. If you have a Body Mass Index of 40 or above we may ask you to reduce your BMI before proceeding to surgery. For our full referral criteria please visit: practiceplusgroup.com/wellsoon
